Profile summary

Computer Science undergraduate with strong programming fundamentals in C++, C, and Python, and a solid understanding of Data Structures and Algorithms. Demonstrates strong problem-solving skills, logical reasoning, and analytical thinking through regular coding practice. Familiar with full stack web development technologies including HTML, CSS, JavaScript, React, Node.js, Express, and MongoDB, Passionate about writing clean, efficient code and constantly improving through learning, building, and collaborating. Seeking opportunities to apply technical skills and contribute effectively to real-world engineering projects.

Education

- **Bachelor of Technology (Computer Science and Engineering)** 2024–2028
Chandigarh Group of Colleges, Jhanjeri
CGPA: **8.2**
- **Advanced Diploma in Computer Applications** 2023-2024
Microchip Technology Lab, Mukerian, Punjab
Grade: **A**
- **Secondary School Education** 2023
Government Higher Secondary
School, Nangal Bhur, Punjab
Percentage: **91.2%**

Projects

IOT – Based Smart Restroom Hygiene & Occupancy Monitor System

- Developed a real-time monitoring system using NodeMCU (ESP8266) and Blynk Iot Cloud to improve facility hygienic management.
- Integrated PIR sensors for motion-based occupancy tracking and Ultrasonic sensors for automated dustbin Fullness alerts.
- Programming logic in C++ (Arduino IDE) to handle sensor data processing and cloud connectivity.
- **Tech Stack:** C++ (Arduino IDE)

Movie Updater: Modern React-based movie tracking web app [🔗](#)

- A web app built with **Vite + React + TypeScript** (the site's code base suggests this) that lets users: Search for movies, see movie details, possibly track new releases or updates.
- **Intuitive Experience** — Simple, user-friendly interface that feels great on any device
- Rich posters and UI make browsing a delight.
- Movie Updater brings all essential movie information together in one elegant platform.
- **Tech Stack:** HTML, CSS, REACT, JSX

Double Landing Page: Smartphones Compare UI [↗](#)

- **Phone Hover Showcase** is a sleek and modern front-end UI project that demonstrates an interactive **hover-based product comparison experience** for smartphones.
- The interface highlights two popular brands—**Apple** and **Samsung**—allowing users to visually explore each device through smooth hover effects and minimal design.
- This project focuses on **UI/UX interaction**, using hover animations to bring life to static product cards. When users hover over a phone card, the layout responds instantly, creating an engaging and intuitive browsing experience similar to modern e-commerce platforms.
- **Tech Stack:** HTML, CSS

Rotating Gallery: Dynamic picture rotation [↗](#)

- **Rotating Gallery** is a visually engaging image carousel UI built with modern front-end technologies.
- It features a rotating gallery that allows users to smoothly browse through multiple images with intuitive **Prev/Next** controls and fluid transition animations.
- This project is ideal for showcasing **UI animation skills, DOM manipulation, and layout management**, making it suitable for use cases such as photo galleries, product showcases, portfolios, or landing pages that require interactive visual presentation.
- **Tech Stack:** HTML, CSS, JAVASCRIPT

Skills

- **Programming languages:** C++, C, Python
- **Web Technologies:** C++, HTML, CSS, JavaScript, React, Node.js (Basics), Express.js (Basics), MongoDB
- **Tools & Platforms:** Git, GitHub, VS Code, Copilot
- **Soft Skills:** Leadership, Problem Solving, Teamwork, Communication, Adaptability, Time Management
- **Core CS Concepts:** Data Structures & Algorithms, Object-Oriented Programming, Operating Systems, DBMS, Computer Networks, Computer Organization and Architecture

Certifications

- **Learning Generative AI for All Program** — Certified by Physics Wallah X Microsoft [↗](#)
- **Programming Fundamentals using Python**— Infosys Springboard[↗](#)
- **Web Development Internship Certification** — Issued by Cod soft [↗](#)
- **AWS Summit India Online 2025** - Issued by Amazon Web Services (AWS) [↗](#)
